## CEFL Study Support School Programme (S3P) at Blenheim

---

Rewriting our Story:

The success of S3P at Blenheim continues to echo across the Lambeth RMO community. The S3P provides extra-curriculum learning to help improve attainment levels for young residents. It has proven to be very popular and first choice of activity for young residents and their housing providers across Lambeth.

When Mr Danny Howcroft (Estate Director) nominated S3P for Best Community Initiative Award at the Lambeth Residents Conference, he hadn't envisaged the impact his action would be on both CEFLynxcx and BGRMO. A video presentation of S3P at Blenheim Gardens became the talk of the Conference.

The video production that won the day was a co-production between young people, parents, the RMO and CEFL and was filmed and edited by Don Gordon, a 23 year old volunteer at CEFLynxcx.

The video that won Blenheim Gardens S3P the 'Best Community Initiative Award' can be found on YouTube (search CEF & Lyncx).

Receiving Award: Miss Williamson (right) and Christian Johnson (left), Executive Director -CEF Lyncx

The award was presented by [Councillor Adedamola Aminu](#), the Mayor of Lambeth to Miss Navlet Williamson, Chair of CEFLynxcx on behalf of all our contributors and supporters.

### Sharing at the Blenheim AGM

The impact of the S3P on young Blenheim residents received the approval of Mrs Mable Nsubuga, a parent at Blenheim Gardens RMO Annual General Meeting (AGM) last month. She told the event

*"My three children attend the homework club regularly; they are all doing very well. My daughter P, was predicted to achieve a level 3 in maths but she achieved a level 6 and she has been nominated for the Lambeth Achievement Award 2014. She wouldn't have done it without the help she got from the homework club"*

---

### Study Support School Programme Football Training Session (S3P FTS)

The S3P footy at Windmill Gardens Park is growing stronger, thanks to the commitment and enthusiasm of the young residents who have taken charge of the game.

The team have now achieved the three objectives they set themselves in August; commitment, attendance and respect on the pitch. Looking ahead, the coach Marcus Miller's new objectives are to involve the team in some trial programs.

Aaron aka Beckham, takes his role as an ambassador of the game at Blenheim very serious. He is in charge of the football kit cupboard, works closely with the coach to ensure that every kit is ready on the pitch before the coach arrives & he is well respected by the team.
